Introduction

The main objective of the gate access system with TACI is to effectively and accurately monitor Contractor's personnel movement entering and leaving plant site during plant outage period. Important contractors' personal particulars such as name, NRIC, position and company are kept in a system database and could be access anytime if require.

Important Notes

- Please do TACI online registration before Shutdown/TA starting or 3-4 days before start working dates.
- Make sure fill up all document and data perfectly according to Plant requirements.
- Any inquiries please contact our TACI support at 018 943 1753 (WhatsApp/Call) or direct walk in to TACI Cabin located at Main Gate.
